ABOUT THE LEOGRAPH

The Leograph is a creative production and execution company based in Kochi.

With over 15 years of experience across media, entertainment, advertising, and production, we work with filmmakers, organisations, businesses, and creative teams to plan, coordinate, and deliver films, campaigns, events, promotions, releases, and communication projects. CLIENT PERSPECTIVES

The film industry is never easy, especially as a producer. Even with clarity and preparation, the process can feel overwhelming. Arunce Leo came in as the promotions head, and he truly made a difference. He took care of the entire release and marketing process, allowing me to focus on my business. Having someone so dependable during such a crucial phase meant a lot to me. I'm really grateful for his support, and I would genuinely recommend him to anyone looking for someone they can trust.

Abhijith Babuji

Aquae Impact associated with The Leograph for our communications and networking efforts, and they really helped streamline and set things up in a very effective way. On a personal note, as an author, Arunce also supported me with the design and publication of my book Guardians of the Global Commons. He has helped me organize many things at different stages of my work. I truly appreciate the clarity and support he brings to everything he does.

I've worked with Arunce for a while now, and it has been truly rewarding. He takes the time to genuinely understand your business, brings clarity where there's uncertainty, and offers insights that open up new possibilities. He's sincere, hands-on, and approaches every project with the same care and attention as if it were his own vision. His ability to provide direction with insight, integrity, and deep commitment to his clients sets him apart. I recommend him without hesitation.
